- Uzbek (Native)
- Russian (Fluent)
- English (A1)

EDUCATION

MARS IT SCHOOL - Frontend

18.02.2024 - 31.05.2025

NAJOT TA'LIM - Frontend

16.08.2025 - 22.01.2026

SUMMARY

Junior Frontend Developer and Frontend Developer Intern focused on building dynamic and responsive web applications using React, Next.js, TypeScript, and Tailwind CSS. Completed frontend development courses at Mars IT School and Najot Ta'lim. Highly motivated and disciplined, with a strong interest in continuous learning and real-world practice. I enjoy turning ideas into clean, user-friendly interfaces.

EXPERIENCE

Frontend Developer Intern
CapMa — Jan 2026 - Present

- Developing and improving UI features using React and Next.js
 - Working with REST APIs, Axios, and async data handling
 - Managing application state with Zustand
 - Fixing bugs and refactoring existing components
 - Collaborating with senior developers and following code standards — Library and Books Management App
- React.js, Tailwind CSS, Axios, i18next, Zustand

PROJECTS

StreamVibe
React, TypeScript, Tailwind CSS, Axios, Zustand [GitHub](#)

- Built a real-time movie & TV series discovery application that dynamically fetches thousands of titles, trending content, top-rated movies/series, and search results using the TMDB (The Movie Database) API.
- Developed a powerful real-time search feature with debounce, supporting autocomplete/instant results and combined movieTV show querying.
- Created detailed view pages for each movie and TV show, including: overview, cast & crew, genres, release date, runtime, user rating, similar/recommended titles, and embedded YouTube trailer playback.
- Fully responsive and modern UI/UX designed with Tailwind CSS (support, mobile-first approach, beautiful poster cards and banners).
